EAST ALMA

Rev. Bennett of Montcalm county, is staying for the winter with his daughter, Mrs. Beers, Dean street. The Wesleyan Methodist conference has granted Rev. Bennett a rest period that he may regain his health.
The rummage sale to be held in the basement of Eastminster chapel, Republic avenue, has been postponed for a week, until Friday and Saturday afternoon, November 19 and 20. The sale will also be open in the evening of these days. There is a good assortment of warm winter quilts and clothing for men, women and children. Baked goods will form a strong feature at the sale.
Miss Irene Pattison, Captain of the Girl Scouts, had her tonsils removed Friday.
Mrs. Augustine of Grove avenue has been visiting at Ithaca. Jesse Augustine was off hunting for a few days.
The play "A Little Mistake" to be given soon by the Girl Scouts, is progressing splendidly, under the able guidance of Miss Nettie Weatherhead. The Girls are also planning to give a Christmas fair the second week in December.
Sunday night at 7:30 in Eastminster Chapel, there will be given a fine series of stereopticon views, beautifully colored, illustrating the great story "Joseph and his brethren." There will also be special music by the choir. Adela Bowes will sing.

The sermon by Jack Eccles was listened to with marked attention last Sunday night. He scored the "Sunday movies" as undermining the morality of America. The "movies" get their best attractions for Sunday night and get the crowds while the churches go empty. The popular songs sung by the crowds were illustrated and shown to be quite unfit to hear, and a disgrace to American society. Go to church Sunday if you love your country and your own salvation, he said.

Mr. Peterson corner of Eastward and Elmwood avenues has been on the sick list. One of his children is also ill.

Harold G. Dean's little daughter, Dean street, has been in the doctor's care with a severe cold.

Mrs. Robert Grierson, Grove avenue, went to Dexter to visit her mother, Mrs. Sherman, who is very sick.

Mrs. Earl Faught, Highland avenue and her little son are making a long visit with her mother at Gladwin, Mich.

Owing to the illness of the officers the Girl Scouts spent Saturday afternoon in a social way. Games were played and refreshments served. All report an enjoyable time.

The Union Prayer meeting is being held tonight (Thursday) at the home of Mrs. Westcote, Hayes avenue. You will get a welcome if you attend.

The following program will be given at the Republic school on Friday, November 19, at eight o'clock by the Girl Scouts:

Music—Irene Pattison.
Pantomime—Florence Carnicom, Celia Bradley.
Sketch—"The Crystal Gazer," Lela McBain, Margaret McIntyre.
Solo dance—Adella Boes.
Reading—"The Bald-headed Man," Vandetta Ramsey.
Play—"Just a Little Mistake."

Characters
Mrs. Ball—Beatrice Snider
Elsie Walton—Adella Boes
Helen Strong—Norma Martin
Ray Foster—Celia Bradley
Jerry—Vandetta Ramsey
The Cook—Esther Richardson

Serious Results from Colds.
Colds not only cause a tremendous financial loss but are also a serious injury to every one who contracts them as they lower the vitality and prepare the system for the more serious diseases. It is not at all unusual for people who have serious lung trouble to say "I had a hard cold last winter." Why not take Chamberlain's Cough Remedy and cure your cold while you can.—72-4w.

EXCURSION

Attention Mr. Farmer, Mr. Investor, Mr. Health-Seeker

WE TAKE YOU TO THE RICHEST AND MOST FERTILE LAND IN THE WORLD EXCEPT THE VALLEY OF THE NILE. THIS LAND IS LOCATED IN THE LOWER RIO GRANDE VALLEY OF TEXAS FORTY MILES FROM THE GULF OF MEXICO UP THE RIO GRANDE RIVER FROM BROWNSVILLE. TAKE YOUR MAP AND LOCATE IT. IT IS CROSSED BY THE 26TH DEGREE NORTH LATITUDE, AND IS 450 MILES FARTHER SOUTH THAN LOS ANGELES, AND IS ON A PARALLEL WITH THE EXTREME LOWER END OF FLORIDA.

Seven conditions make it the best place to Live and to Farm than any other place in the whole of the United States

First—Soil: The soil is a silt loam—chocolate color—which geologists say took over seven million years to deposit and is 30 feet to 80 feet deep, and no richer soil in the world.

Second—Climate: The climate is the best to be found in the United States. It is better than California, Florida, Arizona or Colorado. It is a semi-arid region, and is dry climate, mixed and fanned by the Trade Wind which blows almost continuously from the Gulf of Mexico, and the pure arid lands north of the Valley, thus making it one of the healthiest localities to be found in the United States, a sure cure for asthma, rheumatism, hay fever and all kind of lung troubles.

Third—Water: We have the most adequate and efficient irrigation of all our lands that is to be found in the United States, and every time you irrigate your land is made richer, and you can get water when you want and all you want.

Fourth—Labor: We have an abundance of labor, and good efficient labor at from \$1.00 to \$1.50 per day and they board themselves. The farmer and the farmer's wives do not have to be slaves here.

Fifth—Markets: We have the great Mississippi Valley and Eastern States—Railroad facilities and ocean shipping from Point Isabel and other ports.

Sixth—Social Conditions: No better schools and no higher salaried teachers, no better people, no better church facilities to be found in the United States.

Seventh—Variety of Production:

LIVE STOCK:Hogs have no cholera. Run on green Rhodes grass and alfalfa 12 months in the year, and are finished on corn which we produce 2 crops per year. We can produce a pound of pork at from 3 to 4 cents cheaper than any place in the United States.

CATTLE:We can pasture 4 head of cattle on one acre of Rhodes Grass 12 months of the year.

DAIRY COWS:Absolutely the best dairying country in the World—3 kinds of grasses—12 months of the year.

POULTRY:The peculiar conditions make it very profitable. Winter eggs and hatching.

PLANT LIFE:Three crops broom corn per year, two crops of field corn; ten crops of alfalfa; five crops Rhodes grass; three crops sorghum hay; Sudan Grass; Cotton and other state crops.

We grow and ship the following winter crops: Spinach, beets, carrots, head lettuce, garlic, strawberries, peppers and other garden vegetables, 26 varieties being raised as winter crops.

FRUITS:The greatest grape, fruit and orange country in the world. We can prove it. Besides we raise lemons, figs, grapes, peaches, plums, apricots, kumquats, loquats, tangerines, berries, and also pecans and English walnuts. Oceans of good water melons and canteloupes, beans, cucumbers, etc.

We will take you to this Magic Valley in our own private Pullman and Dining Cars at a very small expense and prove to you that these statements are true.

We run an excursion every Sunday night from Chicago, leaving at 10:30 p. m. from Dearborn street station over the Santa Fe R. R. via Kansas City, Oil Belt of Oklahoma, Dallas, Houston, Galveston and the Valley.

RESULTS
One acre of our rich, irrigated land is worth any eight acres found here. Our land is working 12 months in the year.

Come in our office and let us tell you about it and about the wonderful trip you are going to take.

Come and see us at once and make your arrangements to go
